

# Level 1 Award in Electric/Hybrid Vehicle Awareness (1 Day)

Course Synopsis

## Target Audience

Vehicle Industry sales staff, Parts staff, Valet staff, Professional drivers, Delivery drivers and anyone that through their work would come to use these types of vehicles.

## Overview

This unit is designed for those people who may encounter Hybrid/Electrically Propelled vehicles and require the safety awareness for their job role. It is suitable for non-technical people such as valet staff, parts, sales staff and electric vehicle drivers. It contains the knowledge of the dangers surrounding electric vehicles and the precautions to avoid potential injury to themselves and others. Familiarity with Hybrid and Electric vehicle drive systems and how to get the best performance from them will help the delegate feel more confident with their use. Best practice in minimising risks and reducing potential hazards in the event of malfunction of the vehicle or in the event of an accident will ensure the operator of the vehicle is fully aware of its technology.

**Note - This is a knowledge unit and does not deem someone competent to work on the high voltage energy electrical system**

## Subjects Covered

- Know about the types of Electric Vehicles available
- Understand the hazards surrounding high energy electrical systems
- Know how to use and work safely around Electric Vehicles

## Certification

I.D No: 603/1465/5 - IMI Level 1 Award in Electric/Hybrid Vehicle Awareness
